

# UPPSALA

The Uppsala is powerful yet frugal with a good size tough firebox, designed to keep your house warm 24/7 whilst maintaining a clean burn even when shut down. 200kg of natural Soapstone will maintain embers in the firebox for many hours, while radiant heat from the soapstone remains warm for long period of time even after the fire has gone out. This makes the need to burn overnight in many cases unnecessary. Uppsala has one of Euro Fireplaces longest ember retention times.

National Certificate of Compliance No; H1026/0217

Heating capacity	280sqm
Efficiency	Aus 70% / Eu 81%
Emissions	1.5g
Wood usage	2kg/hr
Weight	309kg
